PATENT OFFICE OF THE REPUBLIC OF POLAND

Patents:
P.220888 (profile system
P.425699 (hidden hinge)
Protected design:
WP.30407 (hinge)

Description:

ARTUS series lockers are distinguished by specially designed structural profiles. They allow for the installation of additional options:
- AQUARI hinges that open at 180 degrees and allow for the construction of PIANO doors,
- LED lighting, which gives the lockers a modern and eye-catching character. The mounting socket for these elements if not used is discreetly hidden behind an elegant aluminum cover.

Thanks to innovative solutions, these lockers offer the possibility of configur - tion to any dimension, maximally meeting individual needs.

Although initially HPL lockers were intended for use in swimming pools, their excellent properties have led to their application in many other facilities.

Investing in ARTUS lockers is a choice of uncompromising quality. Designed for durability, functionality and elegant appearance, they prove that excellence is within reach of each of our customers.

- only Torx screws are used
- fully assembled product
- custom sizing available
- the possibility of custom built
- easy to clean

Locks for lockers

Security - a common value of the locks we offer, that is why we only provide those from reputable manufacturers. Below, we describe three additional features that guided us in selecting the locks for our products.

Waterproofnes - prepared to work in any conditions.
Prioritizing quality above all, we have decided that all locks offered by us are suitable for use in moist areas.

Interchangeability - lock models can be exchanged at any time, changing from a lower model to a higher one. This way, the locker room can be modernized without the need for costly door replacement. When changing locks to deposit or electronic locks, additional holes will have to be made in doors.

Availability - don't waste time waiting.
A strong aspect of our offer is the availability of locks on stock, significantly reducing the time needed to complete the order. For projects with slot or digital locks above 200 compartments, please contact us to confirm availabilit .

Cam locks, the locks we offer have a 1/1000 combination, meaning the chance of opening with your key any another locker is 0.1%.

Padlock locks, an alternative to key locks is padlocks. The recommended shackle diameter for padlocks is 5-7 mm.

The option to use any lock.

We are not limited to our own selection; we can integrate the locker with any lock specified by the client.

Code locks are maintenance-free solutions. All code locks offered by us have a master key opening option in case the code is forgotten.

Deposit locks, Coin-operated or token--operated locks are capable of accepting coins or tokens into a special container. Locks can operate on coins of 1/2 EUR. In case of key loss, locks can be opened using a master key.

Electronic lock that support the standard RFID are modern programmable locks operated by CARDS, WRISTBANDS, or other RFID TOKENS. Available in both OFFLINE versions powered by batteries and ONLINE versions powered externally.

back

SMART LOCKER transforms lockers into solutions

ALSANIT introduces innovative solutions in the field of lockers with smart locks, enabling electronic control over them.

Thanks to cooperation with the renowned brand SMART LOCKER, representing the most advanced intelligent locking system available on the market, we can confidently offer this solution to our customers.

SMART LOCKER stands out not only for its ease of use but also for its rich configuration options, ensuring easy management and convenient use.

The possibility of integration for any ALSANIT locker system

Full service including installation and training

The ability to integrate with the client's database

The ability to customize the software to individual needs

SMART LOCKER is an intelligent locker system that introduces a new era of facility management.

Examples of applications by industry

	INDUSTRIES									
FUNCTIONS	OFFICES	SCHOOLS	STORES	PHARMACY	FACTORIES	SPORTS FACILITIES	LOGISTICS SHIPMENTS	HEALTHCARE	PUBLIC AREAS	GASTRONOMY
STORAGE	✓	✓				✓		✓	✓	✓
DISPENSE	✓	✓	✓	✓	✓	✓	✓	✓		
DROP OFF / PICK UP	✓	✓	✓		✓		✓		✓
